

## How long will it take before I am successful in getting a property through Homelink?

Even though Nottingham Homelink manages around 30,000 properties across Nottingham, only a small number of properties are available at any one time. There is usually approximately 90-100 properties advertised each week. In order for you to have some idea about the amount of time you may have to wait before you are successful in obtaining a property see the information below.

Please note: these figures are only to be used as a guide and show how long other people have had to wait for a property. You may have longer to wait if you need family type accommodation as there is a high demand for this type of property. This information is taken from properties let between June 2006 and December 2007
